Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On May 29, 2007, Hawker Beechcraft Corporation, an operating subsidiary of Hawker Beechcraft Acquisition Company LLC (the “Company”) announced the appointment of William E. Brown, 44, as President of its Global Customer Support operating segment. Mr. Brown joined the Company from AAR Aircraft Services, an aircraft parts and maintenance firm, where he served as President and General Manager of a number of that business’s locations. Previously, Mr. Brown served as Senior Vice President of Operations for Independence Air. Together with other previous employment, Mr. Brown has over 20 years experience in the aviation operations industry. Mr. Brown will assume responsibility for the Company’s customer support, parts distribution and aircraft services operations.

Hawker Beechcraft Corporation Announces New Global Customer Support President

WICHITA, Kan. (May 29, 2007) – Furthering its commitment to producing the world’s finest aircraft and providing customers with excellence in service and support, Hawker Beechcraft Corporation (HBC) is pleased to announce the appointment of William E. Brown as president, Global Customer Support. Brown will lead the entire Global Customer Support organization, which is comprised of Customer Support, Parts Distribution and Aircraft Services, HBC’s network of fixed base operations and service centers.

“We are extremely fortunate to have someone of Bill’s caliber join our leadership team and continue our performance excellence promise,” said Jim Schuster, chairman and CEO of Hawker Beechcraft Corporation. “Our customers – the perspective that matters the most – tell us we have made tremendous progress towards that objective.”

Brown replaces Randy Groom, who recently made the decision to take some time with his family and explore new career opportunities for the future. “A true Beechcrafter at heart, Randy has led the Beechcraft and Global Customer Service and Support organizations over the last three and a half years making significant contributions,” Schuster said. “He will be staying with us to ensure a smooth and seamless transition.”

With more than 20 years of aviation operations leadership, Brown is a dynamic, people- and customer-focused leader. He has the operational background and market knowledge to lead the Customer Support organization as it continues on the path to being recognized as the premier provider of customer service in general aviation.

“The position of President of Global Customer Support is a critically important role for Hawker Beechcraft,” Schuster said. “Under Bill’s leadership we are confident he will continue to raise the bar in ensuring we provide a wholly new level of service and support for our customers. He is backed by a veteran corps of leaders on his team including Doug Brantner, Christi Tannahill, Drew McEwen, Tony Caper, Carroll Shivers, Mike Sloan, Greg Graber and Wes Norris.”

Brown joins HBC from AAR Aircraft Services, where he has been president and general manager of the aircraft maintenance and repair operations’ four locations in Oklahoma City, Tinker Air Force Base, Hot Springs, Ark., and Roswell, N.M. Prior to that, he was senior vice president, Operations for Independence Air; senior vice president, Sales & Marketing for Avborne Inc.; vice president, Maintenance and Engineering at Midwest Airlines; and spent the first 13 years of his career with American Airlines, where he advanced through a rapid series of operational roles. Brown has a master’s in Business Administration from Colorado State University and a bachelor’s degree in Aviation Management from Oklahoma State University.

Hawker Beechcraft Corporation is the world’s leading business, special-mission and trainer aircraft manufacturer – designing, marketing and supporting aviation products and services for businesses, governments and individuals worldwide. The company’s headquarters and major facilities are located in Wichita, Kan., with operations in Salina, Kan.; Little Rock, Ark.; and Chester, England, U.K. The company leads the industry with a global network of over 100 factory-owned and authorized service centers.
