

King Air Electronic Window Shades

Benefits:

- Enhanced passenger comfort
- Variable shading without losing view outside
- 100% privacy on demand
- Protects your aircrafts interior from fading, cracking, and heat
- Windows automatically shades to dark when power is turned off to keep cabin cool and protect interior (emergency exit goes dark after 45 min)
- Each passenger station can control their own window
- Replaces polarized and mechanical shades
- Very low power consumption (60 milliamps)
